About PRINCE2® 7

PRINCE2® is a project management methodology practised and recognised on a worldwide scale.

It's a clearly defined framework, based on the official PeopleCert manual *"Managing Successful Projects with PRINCE2®, Seventh Edition"*.

The PRINCE2® 7 method is composed of 5 integrated elements which include Project Context, Principles, People, Practices and Processes that equip practitioners with the knowledge to manage projects in a range of environments.

In the current 2023 edition of the manual, and to reflect changes in project management environments, some new concepts including sustainability, data management and commercial management are added. People Management is positioned as central to the method.

Four example scenarios spanning a range of sectors are used throughout. Tailoring to suit the project and the organisational needs remains core to the approach and is examined at Foundation level, as well as at Practitioner level.

8 Reasons to Choose a PRINCE2® Certification

① Global Recognition

The PRINCE2® methodology is used in 150 countries worldwide, in over 20,000 organisations.

② Career Boosting

88% of PRINCE2® certification holders said it has helped them in their career. (source)

③ In-Demand

There are over 1 million PRINCE2® certified professionals and counting!

Continuing demand for PRINCE2® has led to us running busy courses throughout the year.

④ All Projects, All Sizes

PRINCE2® can be successfully applied to any kind of project.

It is designed to be easily scalable to fit projects of all sizes.

⑤ Different sectors

PRINCE2® is used in almost every sector imaginable.

It's equally effective in small to medium enterprises and larger organisations.

⑥ Support for Tailoring

PRINCE2® is a truly supportive framework, incorporating guidance that helps you tailor the framework to your project or working environment.

⑦ Consistency

PRINCE2® ensures consistent language and terminology across businesses and project teams.

This is also very helpful for project managers moving between teams, clients, and organisations.

⑧ Partners Well

PRINCE2® also works really well when combined with other methodologies.

For example, PRINCE2® pairs beautifully with Agile and is considered complimentary to the Project Management Institute (PMI)® framework.

Our PRINCE2® Approach

Our PRINCE2® training is intensive exam preparation that will prepare you to sit both the Foundation and Practitioner exams.

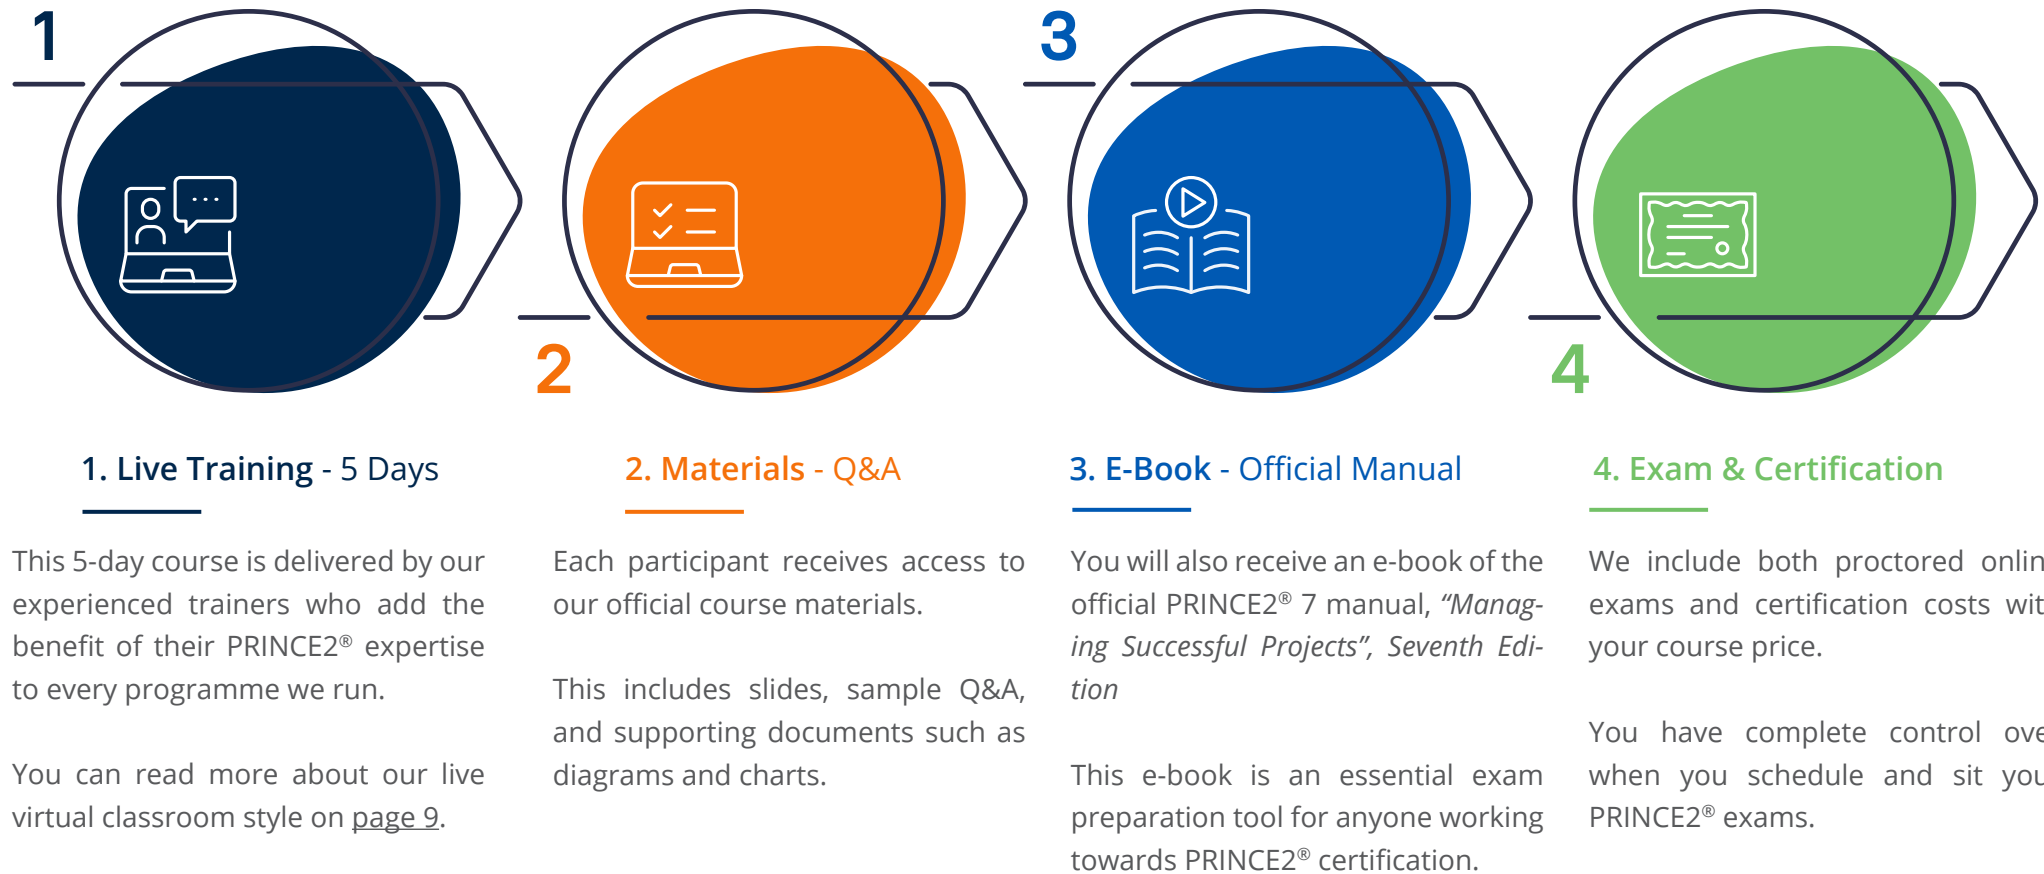

Our goal is that you will understand the five integrated elements of the PRINCE2® method which include Project Context, Principles, People, Practices and Processes and feel confident that you can achieve your PRINCE2® Certification.

Our delivery style is geared towards focused exam preparation. The course syllabus follows the requirements laid down by PeopleCert on behalf of AXELOS, the accreditation body.

While some experience in a project management environment is recommended and will be helpful for completing this course, PeopleCert on behalf of AXELOS do not lay down any formal eligibility requirements to become PRINCE2® certified.

What our PRINCE2® students say...

"The course content is very clear... definitely given me more confidence that I have good structure in place in my current work but also surprised how much benefit it may bring to my current role and any future roles....

...Discussions were very effective, the addition of the online learning - videos, slides and sample questions were excellent."

- Deborah, Foundation & Practitioner student

"The trainer was amazing, nothing to add to his class. Being able to practice with real tests to have an idea of what we will find the day of the exam was great."

- Eva María, Foundation & Practitioner student

"I thought the virtual delivery was great. I was worried about spending so much time sitting in front of a computer but the time flew and we had good breaks that helped."
